

BMSC TRAIL MAP 2020-2021

Bridgewater Mountain Snowmobile Club (BMSC) consists of 50 miles of trails in the Newfound Lakes region that travel through the beautiful Bridgewater NH mountains in the towns of Bridgewater, Ashland, Bristol, and Plymouth. The trails provide access to Ashland to the east (via Corridor 24), Newfound Lake to the south, and to the north-east, Plymouth and the railroad tracks leading north and south (Corridor 8). We pride ourselves on the quality and consistency of trail maintenance and grooming as well as frequent updates of current weather and trail conditions. We will display those real-time weather reports, photos, videos, and trail conditions on this site and our Facebook page.

The trail system offers several restaurants in Bridgewater, a convenience store and gas station as well as a full service snowmobile dealer. To the north in Plymouth and Rumney you'll find more restaurants and fuel and to the east in Ashland you'll also find restaurants and fuel.

Our trail system connects to other great local clubs; Hardy Country SC to the north following Corridor 24 to the western side of Newfound Lake into Hebron, Rumney and Dorchester Woods. Squam Trail Busters SC picks up on the east side of the Squam River following Corridor 8 to the east.

Thank you for visiting and we welcome you to join our club and ride our trails. We'll see you out in the mountains!
